Contents of Volume 53

Volume 53 No.1

ANTONIO J. RODRÍGUEZ and ANTONI TORRENS / Wajsberg algebras and Post algebras 1

RENATO A. LEWIN, IRENE F. MIKENBERG and MARIA G. SCHWARZE / P1 algebras 21

GIAMBATTISTA AMATI and FIORA PIRRI / A uniform tableau method for intuitionistic modal logics I 29

CLAUDIO CERRATO / Decidability by Filtrations for graded normal logics (graded modalities V) 61

ANDRÉ FUHRMANN and EDWIN D.MARES / On S 75

TOMASZ POŁACIK / Second order propositional operators over Cantor space 93

R. K. MEYER and H. ONO / The finite model property for BCK and BCIW 107

RYO KASHIMA / Cut–free sequent calculi for some tense logics 119

HELENA RASIOWA / Axiomatization and completeness of uncountably valued approximation logic 137

Volume 53 No.2

MICHAEL FREUND and DANIEL LEHMANN / Nonmonotonic reasoning: from finitary relations to infinitary inference operations 161

VLADIMIR V. RYBAKOV /Criteria for admissibility of inference rules. Modal and intermediate logics with the branching property 203

MISAO NAGAYAMA / On a property of BCK–identities 227

FRANK WOLTER / What is the upper part of the lattice of bimodal logics? 235

FERNANDO GUZMÁN / A Gentzen system for conditional logic 243

MING XU / Decidability of *Stit* theory with a single agent and *Refref Equivalence* 259

VALENTIN GORANKO / Refutation systems in modal logic 299

GEORGE E. WEAVER / Syntactic features and synonymy relations: a unified treatment of some proofs of the compactness and interpolation theorems 325

MAREK TOKARZ / Non–axiomatizability of Grice's implicature 343

Volume 53 No.3

MAX A. FREUND / The relative consistency of system RRC* and some of its extensions 351

KATARZYNA PAŁASIŃSKA / Three–element nonfinitely axiomatizable matrices 361

ERIK AARTS / Proving theorems of the second order Lambek calculus in polynominal time 373

SERGIO GALVAN / A note on the ω–incompleteness formalization 389

YUICHI KOMORI / Syntactical investigations into **BI** logic and **BB'I** logic 397

ANTONIO DI NOLA and ADA LETTIERI / Perfect MV–algebras are categorically equivalent to Abelian l–grups 417

RAJEEV GORÉ / Cut–free sequent and tableau systems for propositional Diodorean modal logics 433

Book received 459

Volume 53 No.4

Cecylia Rauszer 467

BJARNI JÓNSSON / On the canonicity of Sahlqvist identities 473

KLAUS DENECKE and KATARZYNA HAŁKOWSKA / On P-compatible hybrid identities and hyperidentities 493

DAVID ISLES / A finite analog to the Löwenheim–Skolem theorem 503

NEWTON C. A. DA COSTA and DÉCIO KRAUSE / Schrödinger logics 533

MAX URCHS / On the logic of event–causation. Jaśkowski-style systems causal logic 551

Books received 579

Contents of volume 601
